SUMMARY

Full Stack Software Engineer with professional experience building web applications and RESTful APIs. Skilled in Java/Spring Boot and the React/Next.js/TypeScript ecosystem, with hands-on experience improving throughput and reliability on production data systems. Actively developing AI-native workflows using Claude Code and agentic tooling to accelerate feature delivery.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, HTML, CSS, PHP, Python

Frameworks & Libraries: React, Node.js, Next.js, Nest.js, Spring Boot, Tailwind, Flutter, NumPy, scikit-learn

Developer Tools: Git, Docker, AWS (EC2), Kafka, PostgreSQL, Oracle DB, MSSQL, Liquibase, Jenkins, PyTorch, OpenCV, Claude Code, LLM APIs

EXPERIENCE

Coding Instructor (Part-Time) | *Impact A&C* – Vancouver, BC April 2024 – June 2025

- Worked part-time as a coding instructor, teaching programming fundamentals to students from Kindergarten through the end of high school, covering Python basics, app development, Scratch, and game modding
- Built independent projects in computer vision and ML-based monitoring (below) and completed coursework toward the IBM Generative AI Engineering Professional Certificate

Software Engineer | *ZE PowerGroup* – Richmond, BC February 2023 – April 2024

- Maintained and extended a large-scale production database ingesting real-time energy and commodities futures pricing data from a wide range of third-party market data vendors
- Diagnosed and resolved data-parsing failures by updating regex-based parsers whenever upstream vendors changed source formatting, minimizing downtime for downstream pricing systems
- Designed and implemented new database schemas and data-source integrations to onboard new client requirements, managing all work through a Jira-based ticketing workflow
- Built an automated CI/CD test suite that automated 95% of previously manual test cases, reducing testing time and improving defect detection
- Tech:** Java, Spring Boot, SQL, Oracle DB, Liquibase, Gradle, Jenkins, Elasticsearch, JIRA

Software Engineering Intern | *Atomic47 Labs* – Vancouver, BC January 2021 – April 2021

- Developed, tested, and documented Nest.js API endpoints for end-user profile management and cryptocurrency transaction retrieval
- Redesigned a multi-step sign-in flow into a streamlined React-based portal, consolidating form steps to reduce the number of clicks required to log in
- Tech:** Nest.js, React, Postman, REST APIs

Full Stack Developer (Part-Time) | *UBC* – Kelowna, BC September 2019 – December 2020

- Designed and developed a scientific research platform utilizing React and TypeScript to handle and analyze data from thousands of Canadian clinics
- Completed full SDLC for secure profile management and REST API endpoints, reducing corrupt data entries via field-level input validation and automated data-cleaning scripts
- Tech:** React, TypeScript, Nest.js, PHP, SQL, Relational Databases, Docker, Linux, Git

PROJECTS

Capsule Damage Detection System (Computer Vision)

- Developed a real-time computer vision pipeline using Region of Interest (ROI) extraction and deep learning to detect and classify the physical state of medical capsules
- Optimized hardware inference latency using CUDA acceleration, and applied pre-inference cropping, normalization, and grayscale conversion to reduce background noise
- Tech:** Python, PyTorch, OpenCV, CUDA, NumPy, Git

AI Incident Analysis Engine (DevOps/SRE ML Monitoring)

- Built a real-time data streaming pipeline to detect and monitor live infrastructure metrics and anomalies including error rates, request counts, and high system latency
- Implemented an unsupervised ML model using the Isolation Forest algorithm to detect multi-variable anomalies and automate the alert lifecycle from creation to auto-resolution
- Tech:** Python, Apache Kafka, scikit-learn (Isolation Forest), PostgreSQL, SQLAlchemy

EDUCATION

University of British Columbia Bachelor of Computer Science	2022
Douglas College Diploma in Computer Science and Information Systems	2017
IBM via Coursera Generative AI Engineering Professional Certificate	In Progress
